WHADJUK NOONGAR LAND

At Orana House, we are privileged to work on Whadjuk Noongar land. We recognise the harmful and ongoing impacts of colonisation.

We respect our First Nations clients and their unique kinship structures. We offer tribute to all the mentors and elders for the vital role they play in keeping family strong and raising up the next generation, strong in culture.

HOUSING FAMILIES

CONNECT

1

We've built a registry of socially-conscious real estate agents, property managers and owners. We're connecting them with the ideal tenants.

MOVE

2

With ongoing support and a lease in place, FDV survivors can move into a secure home & forward with their lives. They can re-engage with the community, return to work and build independence.

SUCCEED

3

Seeing families thrive as they rebuild their lives in safety.
